PROFESSIONAL SUMMARY

UX Designer with a strong foundation in design thinking, user research, and collaboration, supported by a UX management certification. Skilled in leveraging user insights and market research to create user-centered designs that align with business goals. Experienced in collaborating with cross-functional teams to deliver innovative, engaging solutions that improve usability. Passionate about crafting intuitive designs and enhancing user experiences through data-driven decision-making and continuous learning.

EMPLOYMENT HISTORY

UX Consultant & Product Manager — 2015 - Present

Hammer Consulting & Support Services — *Dallas, TX*

- **Streamlined user workflows and reduced inefficiencies** on a B2B SaaS platform by designing automated workflows that eliminated 55% of manual tasks and reduced reliance on seasonal employees by 65%.
- **Drove successful project outcomes** by leading cross-functional collaboration with development teams and clients, ensuring user needs and business goals were met through organized updates and brainstorming sessions.
- **Unearthed critical user insights** through in-depth research, translating findings into actionable design proposals that resolved pain points and improved overall user satisfaction.
- **Designed intuitive UI mockups and interactive prototypes** using Figma and Adobe XD, effectively communicating design concepts and enhancing client engagement with new product features.
- **Enhanced product usability and accessibility** by contributing to the design and implementation of new features for online statement processing tools, driving operational efficiency for end-users.
- **Spearheaded a website redesign project** for a non-profit division by conducting user research and creating wireframes and prototypes, ensuring scalability and alignment with organizational objectives.

Managing Partner & Design Lead — 2018 - 2024

prtcl inc — *Dallas, TX & Brooklyn, NY*

- **Drove new product designs** by leveraging market research and user insights, achieving a 10–26% sales increase across multiple brands through improved design strategies.
- **Facilitated seamless collaboration** between stakeholders and design teams, ensuring alignment with user needs and brand objectives to deliver cohesive, user-centered designs.
- **Unearthed key opportunities** through in-depth user research and pain point analysis, crafting actionable design proposals that effectively addressed client and user challenges.
- **Delivered impactful product outcomes** by leading cross-functional teams to develop and launch innovative design solutions that balanced user objectives with business priorities.
- **Strategically positioned new styles for growth** by analyzing market trends and user behavior, driving sustained engagement and revenue growth.
- **Transformed user feedback and market data** into actionable insights, refining eyewear designs to better meet user expectations and increase satisfaction.

Eyewear Design Director — 2015 - 2018

Costa Del Mar — *Dallas, TX & Daytona Beach, FL*

- **Resolved design challenges and reduced usability issues** by collaborating with engineering, QA, and stakeholders, leading to a measurable decrease in customer complaints and an improved user experience.
- **Boosted website conversion rates and reduced product returns** by partnering with the e-commerce team to introduce user fit profiles, improving clarity and usability across the online journey.
- **Translated user research insights into prioritized design requirements,** driving the development of new standards that enhanced consistency and user satisfaction.
- **Delivered impactful project outcomes** by coordinating with design agencies, ensuring deliverables aligned with both user needs and strategic project goals.
- **Empowered team growth and innovation** by mentoring team members in vendor collaboration and iterative design practices, resulting in stronger project execution.
- **Developed new product features based on user feedback** from target communities, ensuring designs aligned with user expectations and fostered sustained engagement.

Senior Watch Designer — 2012 - 2015

Fossil Group — *Dallas, TX*

- **Empowered team growth and innovation** by mentoring team members in vendor collaboration and iterative design practices, resulting in stronger project execution.
- **Streamlined design processes and ensured on-time delivery** by facilitating collaboration with stakeholders, aligning development timelines with design goals and business needs.
- **Drove user-focused improvements** by collaborating with cross-functional teams to prioritize features and updates in the product roadmap, addressing critical user feedback effectively.
- **Fostered team growth and performance** by mentoring and training junior designers in design workflows, resulting in stronger skillsets and improved project outcomes.
- **Propelled a 23.7% sales growth** by contributing to the successful launch of the Skechers watch line, delivering impactful results for the business.
- **Enhanced brand consistency and storytelling** by aligning timelines and strategies across product categories, creating a seamless and cohesive user journey between watches and handbags.

Senior Eyewear Designer — 2004 - 2012

Marchon — *NYC*

- **Optimized product offerings** by analyzing user feedback, identifying gaps, and recommending replacements that aligned with evolving business needs and user preferences, enhancing product-market fit.
- **Led cross-functional collaboration** with designers and engineers to deliver user-focused designs for Nike Vision's eyewear line, ensuring alignment with user expectations and business objectives.
- **Empowered team performance and growth** by onboarding and mentoring team members transitioning into new roles, fostering a collaborative environment that drove stronger project outcomes.
- **Revolutionized prototyping and user testing capabilities** by establishing the 3D design department, later branded as the VSP Innovation Lab, enabling faster iterations through enhanced rapid prototyping capabilities.
- **Drove adoption of user-centered design practices** by advocating for design thinking in strategic meetings, ensuring team efforts aligned with both user needs and business goals.
- **Achieved a $10 million revenue increase** by proposing and launching an entry-level Nike Vision product line for younger consumers, leveraging research-backed insights to secure stakeholder approval which accounted for 10% of the company's annual growth in the first year.
