PROFESSIONAL SUMMARY

Design Manager with a strong foundation in design thinking, user research, and collaboration, supported by a UX management certification. Skilled at leveraging user insights and market research to drive user-centered design strategies that align with business goals. Proven experience leading cross-functional teams to deliver innovative solutions that enhance usability and user satisfaction. Passionate about fostering team growth, championing data-driven decision-making, and creating scalable design systems that deliver impactful user experiences.

EMPLOYMENT HISTORY

UX Consultant & Product Manager — 2015 - Present

Hammer Consulting & Support Services — *Dallas, TX*

- **Eliminated inefficiencies and boosted operational performance** on a B2B SaaS platform by designing automated workflows that reduced manual tasks by 55% and cut seasonal staff reliance by 65%.
- **Orchestrated cross-functional collaboration** with development teams, clients, and stakeholders, delivering successful project outcomes by aligning user needs and business goals through strategic planning and brainstorming sessions.
- **Uncovered and addressed user pain points** through in-depth research, transforming insights into actionable design strategies that elevated user satisfaction and streamlined workflows.
- **Developed and presented intuitive UI mockups and interactive prototypes** using Figma and Adobe XD, enabling clear communication of design concepts and driving client engagement with innovative product features.
- **Led the creation and rollout of new features** for online statement processing tools, enhancing usability and accessibility while improving operational efficiency for end-users.
- **Directed a comprehensive website redesign for a non-profit division,** spearheading user research, wireframing, and prototyping to deliver scalable solutions aligned with organizational goals.

Managing Partner & Design Lead — 2018 - 2024

prtcl inc — *Dallas, TX & Brooklyn, NY*

- **Directed product design strategies** by leveraging market research and user insights, driving a 10–26% sales increase across multiple brands through innovative, user-centered design solutions.
- **Aligned cross-functional teams and stakeholders** to ensure seamless collaboration, delivering cohesive, user-centered designs that met brand objectives and user needs.
- **Identified and capitalized on key opportunities** by conducting in-depth user research and pain point analysis, creating actionable proposals that resolved challenges and improved user satisfaction.
- **Delivered impactful product outcomes** by managing and leading cross-functional teams to develop and launch innovative design solutions that balanced user objectives with business priorities.
- **Accelerated revenue growth and sustained sales growth** by strategically analyzing market trends and user behaviors, positioning new product styles for long-term success.
- **Enhanced product offerings and user satisfaction** by transforming feedback and market data into design improvements that exceeded expectations.

Eyewear Design Director — 2015 - 2018

Costa Del Mar — *Dallas, TX & Daytona Beach, FL*

- **Eliminated usability issues and reduced customer complaints** by driving cross-functional collaboration with engineering, QA, and stakeholders, significantly improving the overall user experience.
- **Increased website conversion rates and decreased product returns** by leading the implementation of user fit profiles, improving clarity and usability throughout the online customer journey.
- **Established new design standards** by translating user research insights into prioritized requirements, enhancing consistency and driving measurable improvements in user satisfaction.
- **Delivered strategic project outcomes** by managing design agency deliverables to align with user needs and business goals, ensuring timely completion and exceeding expectations.
- **Cultivated team innovation and growth** by mentoring team members on vendor collaboration and iterative design practices, resulting in stronger execution and elevated project quality.
- **Accelerated user engagement and retention** by spearheading the development of new features informed by feedback from target communities, ensuring designs exceeded user expectations.

Senior Watch Designer — 2012 - 2015

Fossil Group — *Dallas, TX*

- **Fostered innovation and elevated team performance** by mentoring designers in vendor collaboration and iterative design practices, resulting in streamlined processes and enhanced project execution.
- **Streamlined design workflows and accelerated project timelines** by driving stakeholder collaboration and aligning development goals with business priorities, ensuring on-time delivery of high-impact designs.
- **Prioritized user needs and improved product outcomes** by leading cross-functional efforts to address critical feedback, shaping a product roadmap that drove measurable enhancements in user experience.
- **Elevated team capabilities and output** by training junior designers in advanced workflows, fostering skill development that resulted in consistently improved project outcomes.
- **Generated a 23.7% sales increase** by directing design contributions for the Skechers watch line launch, leveraging strategic design management to drive impactful business results.
- **Strengthened brand identity and user engagement** by unifying timelines and design strategies across product categories, delivering a cohesive and seamless user journey between watches and handbags.

Senior Eyewear Designer — 2004 - 2012

Marchon — *NYC*

- **Boosted product-market fit and user satisfaction** by analyzing user feedback, identifying critical gaps, and delivering strategic product recommendations that aligned with business priorities.
- **Spearheaded cross-functional collaboration** with designers and engineers to deliver innovative, user-focused designs for Nike Vision's eyewear line, driving alignment with business goals and user expectations.
- **Accelerated team performance and project outcomes** by mentoring and onboarding team members into new roles, fostering a collaborative environment that strengthened team capabilities and output.
- **Revolutionized design efficiency and user testing** by founding the 3D design department, later branded as the VSP Innovation Lab, cutting prototyping timelines and driving faster iterations for improved outcomes.
- **Drove the adoption of user-centered design practices** by championing design thinking in strategic discussions, ensuring alignment between user needs and organizational goals.
- **Delivered $10 million in revenue growth** by driving the launch of a new Nike Vision product line for younger consumers, securing stakeholder approval through research-backed insights which drove 10% of the company's annual growth in the first year.
